We Measure Up

Pacific Hardwood provides hardwood lumber, moulding, and flooring to commercial customers. Cabinet shops, design firms, architects, lumber yards, millwork shops, and the furniture industry represent the many kinds of businesses served by our company.

With headquarters in Orange County, Pacific Hardwood operates a modern, well equipped hardwood yard and millwork facility with daily truck and rail shipments throughout the country. Our principal focus is the timely delivery of superior material to the many customers whose manufacturing and business efforts we support.

At Pacific Hardwood, we welcome the challenge of competition in the dynamic and growing Southern California marketplace. We are especially proud of the skilled and dedicated personnel who are the principal asset of our company. We pride ourselves on operating an agile and customer-friendly organization, and we continually reevaluate both ourselves and our suppliers toward the goal of delivering the best possible hardwood lumber, moulding, flooring, and millwork, all on time and at the lowest possible price.

We sincerely appreciate your interest in Pacific Hardwood. Please call our office with any questions you may have regarding our products or services. We invite you to join our many satisfied customers, and we pledge our diligent effort toward the satisfaction of your requirements. If our customers look good, we look good. It's that simple.

Products and Services

Hardwood Lumber

- ▶ Domestic and imported lumber
- ▶ Over 30 species in stock
- ▶ Plain, quarter and rift sawn
- ▶ Long lengths up to 16'
- ▶ 4/4 through 16/4
- ▶ Specializing in thick stock
- ▶ On site millwork
- ▶ Longstanding connections with top quality hardwood sources throughout the united states and overseas

Mouldings

- ▶ Thicknesses to 3" x 12"
- ▶ Nationwide shipping
- ▶ Custom or catalog patterns
- ▶ Random lengths or cut-to-length
- ▶ Sanding, priming & other services available
- ▶ Modern & efficient state-of-the-art equipment

Flooring

- ▶ Wide plank, up to 12"
- ▶ Combination face widths
- ▶ Long lengths up to 16'
- ▶ Rustic & character grade
- ▶ Numerous grades
- ▶ Domestic & imported species
- ▶ Plain, rift-sawn or quarter-sawn
- ▶ Standard & custom thicknesses
- ▶ Custom millwork our speciality
- ▶ Matching mouldings & lumber
- ▶ End match any length

Professional & Experienced Service

- ▶ Conveniently located
- ▶ Rapid order fulfillment
- ▶ Experienced personnel
- ▶ Extensive lumber inventory
- ▶ Very competitive pricing
- ▶ High standards in manufacturing

Partial Lumber Inventory List

- ▶ Alder
- ▶ Ash
- ▶ Beech
- ▶ Birch
- ▶ Butternut
- ▶ Cherry
- ▶ Fir
- ▶ Hickory/ Pecan
- ▶ Jatoba
- ▶ Koa
- ▶ Mahogany
- ▶ Maple
- ▶ Pine
- ▶ Raintree
- ▶ On Site Millwork
- ▶ Red oak
- ▶ Walnut
- ▶ OWhite Oak
- ▶ All Popular Imports

- ▶ Sanded panels
- ▶ Drum sanded flat stock
- ▶ Manufactured flooring
- ▶ Radius work
- ▶ Pacific hardwood maintains active relationships with numerous production and millwork facilities throughout the United States. Whatever your need for wood parts, lumber, finished products, or millwork services, we can provide the services and materials you require.

Complete Packages

- ▶ Complete milling of all required moulding and lumber details for construction projects. We work directly from prints to provide all scheduled wood requirements

About Mouldings

Pacific Hardwood produces moulding details on a special order basis. We are happy to quote on any quantity, however, production and set-up costs generally restrict the manufacture of small quantities. We can provide quotations from drawings faxed to our location, or by reference to any of the details in this catalog. We are happy to call on you at your location to discuss your requirements. Keep in mind that the profiles shown on these pages are only a representative sample of popular details. Our skilled milling department can duplicate virtually any moulding detail within the constraints of our equipment, and we take pride and pleasure in satisfying your individual requirements.

Please remember that your choice of wood species can dramatically affect production costs. Also, certain species are better suited to the production of long lengths or other special requirements. Hardwood mouldings are most often produced in American red oak, white oak, maple, poplar, birch, walnut, alder, and mahogany. Softwood mouldings are produced in pine and Douglas fir. These species are stocked and orders can generally be filled quickly.

Drawings in this catalog are approximately full size. Actual moulding details may vary from these drawings. Different runs of the same moulding detail may vary. Moulding runs are produced and delivered subject to industry grading rules. Our sales staff will be happy to carefully review all aspects of moulding production. We sincerely appreciate your business.

Mouldings can be combined to produce larger and more visually interesting effects. Base shoe can be added to virtually any base to add thickness and to secure a tighter joint with the floor. In larger rooms and commercial installation, bases are combined to produce details of greater mass. Panel mouldings and panel caps are often added to the top edge of standard S4S material to produce tall base treatments.

We Measure Up

Crown mouldings are combined with base, panel moulding, and other profiles to produce rich and complex ceiling treatments.

Mantles, shelves, and chair rail treatments are frequently assembled from groups of mouldings. These combinations are limited only by the imagination.

pacificHARDWOOD
We Measure Up

Radius Moulding Sections/ Flexible Moulding

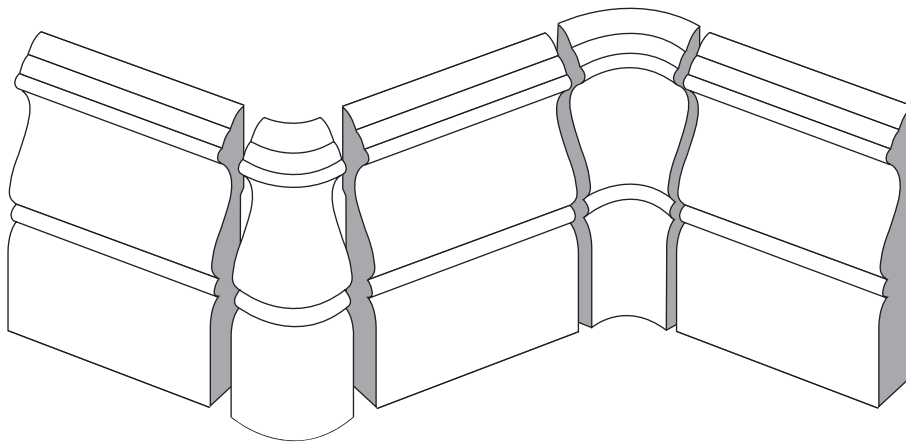

Pacific Hardwood provides moulding solutions for curved and radius corners. Curved radius sections of any of our moulding profiles can be manufactured from your template or from data supplied regarding your configuration. Please refer to the facing page for specific required measurements. Standard bullnose corners and interior corners are available for standard 5/8" radius walls. Length sections of flexible base moulding are available in 6' and 12' lengths. Contact our sales department for details.

Radius sections of moulding can be produced from your template or specifications.

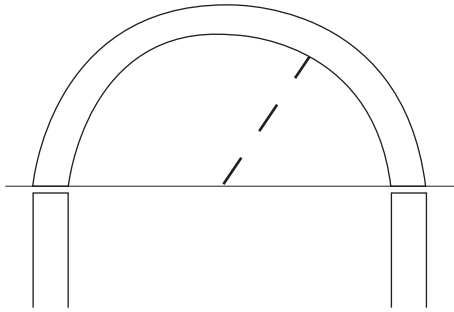

Lengths of flexible moulding are available.

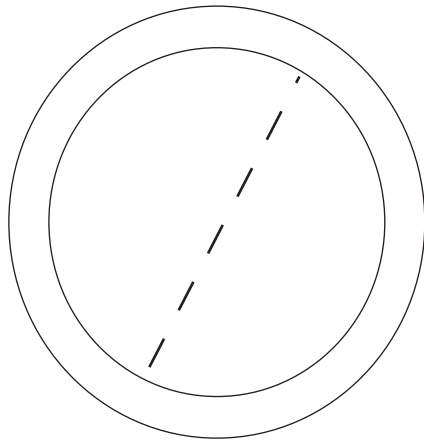

Inside and outside corners are available for radius walls.

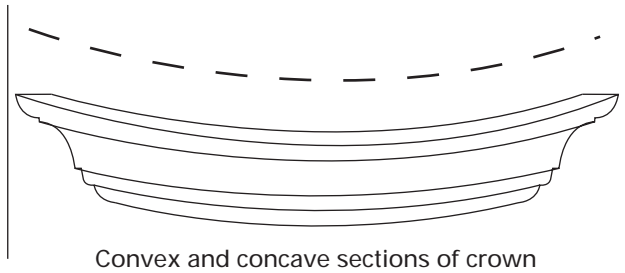

Radius Moulding Section Required Information

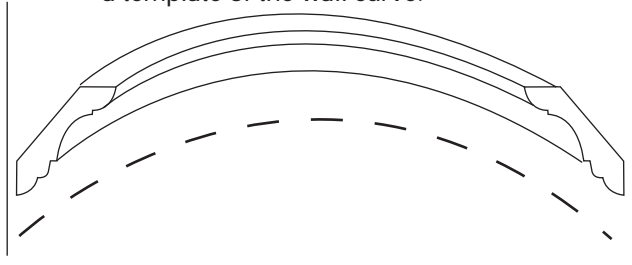

Arched casing moulding headers are produced from the interior diameter of the radius arch.

Circular mouldings are manufactured from the required interior diameter.

Convex and concave sections of crown moulding are manufactured from a template of the wall curve.

REQUEST FOR MOULDING QUOTATION
